Kitchen

Our
**Product
Range.**

Products and Systems
for Kitchen Hygiene.

neodisher® – Our Experience for Your **Safety.**

For over 30 years ...

Dr. Weigert has drawn upon decades of experience to tackle even the most difficult tasks. We possess the requisite expertise in hygienically sensitive areas, in particular, in professional kitchens and in the reprocessing of instruments in medical areas. Competence that you can trust.

Hygiene safety is of vital importance in professional kitchens. Optimum cleaning results achieved as economically as possible are at the centre of automated dishwashing.

Expertise from a Single Source.

Clean dishes and hygiene are an important advertisement. Make the most of our expertise: the specialist knowledge of our **neodisher®** specialist advisors is a strong argument for choosing Dr. Weigert. We are happy to advise you on all issues relating to dishwashers and hygiene in professional kitchens.

Innovative products, precision dosing via the cutting-edge **weigomatic®** dosing systems and all the latest concepts offer exceptional safety and cost-effectiveness, and are environmentally friendly. Your **neodisher®** specialist advisor is your contact for all questions – providing reliable and professional advice on how to get your dishes hygienically and spotlessly clean, for brilliant, streak-free crockery and a hygienically clean environment.

Excellent Performance – also Regarding Sustainability

Hygiene safety and ecology are no contradiction for Dr. Weigert. Dr. Weigert offers 100% effective, environmentally friendly and sustainable hygiene solutions. That's why Dr. Weigert offers you more products with the EU Ecolabel. You will find detergents certified with the EU Ecolabel in our product range under the **eco edition** seal.

Hand Hygiene & Care

triformin® care

Skin care cream

For skin care after work and during breaks. Excellent skin tolerance, confirmed in dermatological certificates. Free of perfume. Dosing from 500 ml bottle via triformin® dispenser 0.5.

Bottle 6 x 500 ml 3105 39

Tubes 12 x 100 ml 3105 15

triformin® protect

Skin protection cream

Protects the skin from drying out. Long-lasting protection and intensive care. Excellent skin tolerance, confirmed by dermatological certificates. Free of perfume. Dosing from 500 ml bottle via triformin® dispenser 0.5.

Bottle 6 x 500 ml 3102 39

Tubes 12 x 100 ml 3102 15

Dosing Technology - Dosing System Solutions for Dishwashers

Intelligent dosing systems – plan with us!

Modern dosing systems for the automatic supply of dishwashers with detergents and rinsing aids are a fundamental requirement for achieving optimal cleaning results in professional kitchens.

Our specialists design, create, install and maintain all systems – from the simplest dosing station to central systems for several dishwashers and the highest requirements with data capture and data management. Our aim: highest quality, functionality and an exceptionally professional approach. Plan your new systems and redesign existing ones with us, right from the start!

Central dosing units

Central dosing units supply larger washing installations with several dishwashers with liquid detergents and rinse aids. The installation of the systems can take place irrespective of the location of the dishwashers.

The use of large reusable containers makes application not only more economical, but also very user-friendly with regard to industrial safety. Awkward handling of canisters is eliminated and dosing takes place in closed systems! The modular **weigomatic®** principle combines individual solutions with an exceptional degree of flexibility and a wide range of retrofitting options.

We will design the optimal dosing unit to suit your needs!

weigomatic® DOS Manager

Combined dosing and control system for liquid detergents and rinse aids in dishwashers, with an integrated memory unit for continuously recording specific operating data such as consumption quantities and operating times. The data can be transferred to a PC for automatic documentation and evaluation. Early detection of malfunctions ensures the cost-effectiveness of the processes and optimum process safety.

weigomatic® ZDA II / weigomatic ZDA® III

Compact dosing system for the central supply of one dishwasher with liquid detergents and rinse aids. Dosing system installation can be irrespective of position from dishwasher. Dosing is quantity-controlled but can optionally also be conductivity-controlled, if desired.

weigomatic® Drumtainer

Transport and storage system for drums; the ideal solution for easy handling when exchanging and storing of drums at the dosing station. A spill pallet in the dosing room is no longer necessary. The drum always remains within the weigomatic® Drumtainer, which is itself approved as a spill pallet, for the entire period of use. Four wheels make the weigomatic® Drumtainer manoeuvrable; there is no more lifting of drums. Storage and transport are made simple and safe, entirely without the use of pallet jacks or forklifts. A complete emptying of the drum is ensured by the incline of the drumtainer bottom. Coloured lids prevent product mix-ups. Furthermore, labels and safety information applied on the outside of the weigomatic® Drumtainer ensure a further clear identification.

Dosing Technology - Dosing System Solutions for Dishwashers

weigomatic® SE

System for the intensive cleaning of dishes in belt and basket transport dishwashers by spraying highly concentrated detergent solutions directly onto the tableware. Starch-containing residues and other stubborn deposits such as tea and coffee residues are removed quickly and completely - for gleaming and clean tableware at all times. Especially suitable for dosing components.

weigomatic® compact SMART

Dosing station with cartridge system for supplying a dishwasher with neodisher® compact detergent powders and neodisher® rinse aids in 2-litre bottles. weigomatic® compact SMART is a modular system which can be retrofitted. This enables a needs-oriented dosing of a further cleaning or defoaming component e.g. to improve the cleaning performance when dealing with stubborn coffee and tea residues or starch deposits.

For dishwashers of all sizes. Space-saving due to compact design, economical dosing via integrated conductivity control and component dosing. Easy to replenish; closed system for optimum personnel safety.

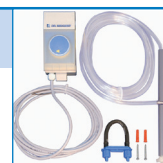

weigomatic® Concept

Standard dosing system for supplying a single dishwasher with liquid detergents and rinse aids, for washers of all sizes. Depending on the application, the weigomatic® Concept peristaltic dosing pumps and weigomatic® Concept conductivity controllers can be combined individually in the modular system. Dosing is quantity-controlled but can optionally also be conductivity-controlled, if desired.

weigomatic® Basic

Universally applicable hose pump for metering a liquid detergent or rinse aid in undercounter dishwashers, glasswashers and hood type dishwashers. Easy to use and completely equipped with the necessary accessories like suction equipment, connecting cable, four-metre tube, stainless steel inlet resp. stainless steel non-return valve and wall mounting kit.

Dosing Technology - Mixing Equipment

neomatik® SGW 1 / neomatik® SGW 2

Dosing equipment for preparing and spraying ready-for-use cleaner and disinfectant solutions. One respectively two cleaning or disinfecting concentrates can be connected to one unit. Solutions can be taken directly from the outlet tap or sprayed with a spray lance. Dosage via integrated metering pumps. Mount on the wall. 10-metre long pressure hose makes it possible to carry out cleaning even in distant locations.

neomatik® SGW 1 (for one product)

D080200

neomatik® SGW 2 (for two products)

D080250

neomatik® WSG 2

Stationary wall spray unit for preparing and spraying ready-for-use cleaner and disinfectant solutions. Two cleaning respectively disinfecting concentrates can be connected to one unit. Dosing via an injector, with spray gun, canister holder and 20 m pressure hose. Mount on the wall.

neomatik® WSG 2

D070440

neomatik® ZMW 1 compact / neomatik® ZMW 4 compact

Compact mixing equipment for preparing ready-for-use cleaner and disinfectant solutions, for filling directly into basins or buckets. One respectively four different cleaning or disinfecting concentrates can be connected to the equipment. With quick couplers the devices can be easily attached. Mount on the wall. With DVGW* approved water reflux prevention system.

neomatik® ZMW 1 compact (for one product)

D070414

neomatik® ZMW 4 compact (for four products)

D070424

neomatik® HSG / neomatik® HSG plus

Manual unit for foaming and spraying concentrates of cleaners resp. disinfectants as ready-for-use solutions, with direct connection to the water supply net. Contains 1.4 L. neomatik® HSG plus for special demands.

neomatik® HSG

D070445

neomatik® HSG plus

D070447

neomatik® easyDOS

Hand pump for the simple, safe and direct dosing of cleaner concentrates into open basins (e.g. buckets or sinks). Precise adjustment of the dosing amount (10 - 30 ml), simple wallmounting, without electrical and water connections.

neomatik® easyDOS

9808 54

Dosing Technology - Application & Ancillaries

Dosing dispensers

For dispensing the triformin® products for hand hygiene and care:

Touchless dispenser (battery-powered):

triformin® dispenser 0.5 touchless for dosing from 500 ml bottles

Art.-No. 9810 30

Stand for triformin® dispenser 0.5 touchless

Art.-No. 9810 31

Washer-proof and autoclavable with stainless steel pump:

triformin® dispenser 1.0 silver for dosing from 1 L bottles

Art.-No. 9810 52

triformin® dispenser 0.5 silver for dosing from 500 ml bottles

Art.-No. 9810 22

With plastic pump:

triformin® dispenser 1.0 basic for dosing from 1 L bottles

Art.-No. 9810 53

triformin® dispenser 0.5 basic for dosing from 500 ml bottles

Art.-No. 9810 23

Foam dispenser for triformin® decon:

triformin® dispenser 1.0 foam for dosing from 1 L bottles

Art.-No. 9810 60

neomatik® pressure sprayer

For spraying diluted detergent and disinfectant solutions. Pressure is supplied via a pump handle.
Extension for sprayer included. Holds: 1.5 L.

neomatik® pressure sprayer

Art.-No. 9808 51

Sprayer with extension

Sprayer with extension for convenient application of neodisher® CombiClean, neodisher® grill and caraform® special in difficult-to-reach areas. Direct connection to canister possible, no laborious decanting to spray bottles necessary.

For 0.75 L bottle

Art.-No. 9802 05

For 2 L bottle

Art.-No. 9802 06

For 5 and 10 L canister

Art.-No. 9802 07

Sprayer and atomiser

Sprayer for neoblack, neodisher® CombiClean, neodisher® grill, neodisher® shine and neoform® K sprint

Sprayer

Art.-No. 9500 07

Dosing accessories

For dosing of caraform® flex, caraform® citro, caraform® nova, caraform® special, caraform® universal and neoform® CM dis

For dosing from the 1 L bottle, Stroke 5 - 20 ml

Art.-No. 9500 25

For dosing from 2 L bottle, Stroke 20 ml

Art.-No. 9204 31

Dosing System Solutions - Application & Ancillaries

Pressure Dispenser

For triformin® wash, triformin® wash pure, triformin® decon,
triformin® safeDIS (0.5 L bottle)
For triformin® protect, triformin® care (0.5 L bottle)
For triformin® wash, triformin® wash pure, triformin® decon,
triformin® safeDIS (1 L bottle)

Art.-No. 9802 03

Art.-No. 9802 02

Art.-No. 9802 00

Dosing and Measuring Beakers

500 ml dosing beaker, graduated
1,000 ml dosing beaker, graduated

Art.-No. 9801 06

Art.-No. 9801 00

Dosing and Application Ancillaries for Canisters and Drums

Plastic key for the easy opening of canisters and drums

Art.-No. 9810 07

Canister pump for 5 L, 10 L and 12 kg canisters (30 ml stroke)

Art.-No. 9807 01

Canister pump for 20 L and 20 kg to 25 kg canisters (30 ml stroke)

Art.-No. 9807 00

Hand lever pump for drums

Art.-No. 9803 08

Outlet tap for 5 L, 10 L and 12 kg canisters

Art.-No. 9800 04

Outlet tap for 20 L and 20 kg to 25 kg canisters

Art.-No. 9800 03

Outlet tap for drums

Art.-No. 9800 02

Screw spout for 5 L, 10 L and 12 kg canisters

Art.-No. 9810 11

Screw spout for 20 L and 20 kg to 25 kg canisters

Art.-No. 9810 10

Drum funnel

Art.-No. 9803 11

Drum wedge, for optimal draining of drums by tilting

Art.-No. 9803 12

Spill pallet for two drums, with forklift bags

Art.-No. D076390

Spill pallet for two drums, without forklift bags

Art.-No. D076392

More spill pallets in different designs available on request

Personal Protective Clothing

Protective gloves

Art.-No. 9880 05

Protective goggles

Art.-No. 9880 06

Storage box for personal protection clothing

Art.-No. 9880 08

Our Service for You - Single Source Solutions:

System solutions:

We offer:

- **Status-quo analysis**
- **Needs analysis**
- **Process optimisation**
- **Regular service**

Regarding:

- **Cleaning areas**
- **Product selection**
- **Product application**
- **Dosing**

We take hygiene personally:

Training of personnel / E-Learning

- Microbiology & Hygiene
- Hand hygiene
- Personnel hygiene
- Cleaning & Disinfection
- Infection Protection Act

Hygiene analyses and hygiene checks

- biocontrol-set multi-tank dishwashers
- biocontrol-set single-tank dishwashers
- biocontrol-set kitchens/surfaces that come in contact with food

More than just documents – the Dr. Weigert hygiene companions created for your needs:

- Work instructions
- Skin protection charts
- Product documentation
- Hygiene information, hygiene labels
- Cleaning and disinfection charts
- Hygienic hand disinfection
- Service check lists
