Kitchen

For the Automated Cleaning
of Convection Ovens

neodisher® **CombiClean**

neodisher® **CombiDry**

The Duo for Reliable Cleanliness

For all Convection Ovens with Integrated Cleaning System

neodisher® CombiClean cleaner
neodisher® CombiDry rinse aid

● **neodisher® CombiClean** combines effective cleaning - even of persistent residues - with a particularly gentle action on material as a result of its proven combination of active substances. The integrated cleaning system ensures an economical use. Important for daily practical application: The pleasant odour has no negative impact on the atmosphere in the professional kitchen. Also suitable for manual cleaning.

● **neodisher® CombiDry** is a rinse aid optimally co-ordinated to the cleaner. It guarantees fast, streak-free drying of the convection oven interior. The equipment will be left gleaming, ready for renewed food preparation.

● Ask your specialist hygiene product dealer for it.
