Cleaning and Disinfection in Laboratories,
Animal Housing and Industrial Cleaning.

neodisher® –
Our Experience for Your
Safety.

For over 30 Years

... neodisher® has been at the forefront of the technological development of automated cleaning and has been setting standards. The neodisher® concept guarantees first-class sustainable results, the longevity of premium materials and residue-free cleanness.

Dr. Weigert has been a pioneer in automated cleaning of laboratory glassware and utensils. Our expertise can solve even the most difficult cleaning tasks. Competence you can trust.

Competence under One Roof.

Cleanness and residue-free utensils are the pre-requisites for achieving exact analyses and experiment results in laboratories and in animal housing as well as for further processing in industrial production.

Different tasks in specialised laboratories involve multiple types of contamination with various physical and chemical properties – make use of our competence: The expertise of our neodisher® expert advisers is a strong point for Dr. Weigert. We are pleased to advise you on all questions concerning automated cleaning.

Innovative process chemicals, optimum dosing of detergents via modern weigomatic® dosing systems and state-of-the-art concepts offer you the highest level of safety and economy as well as material and environmental compatibility.

System Service for First-Class Results.

System service means continued customer support – to achieve first-class sustainable results. Decades of experience, excellent expertise and a close co-operation with the manufacturers of laboratory glassware, animal cages and washer disinfectors enable us to have the right answers to all your questions. We have a profound knowledge of all washers on the market. The dosing systems are regularly serviced – a pre-requisite for safe processes.

Our neodisher® expert adviser is your contact for all questions – reliable and competent for safe cleaning.

neodisher® LaboClean FLA

Alkaline universal detergent – liquid concentrate – Free of surfactants, phosphorous compounds and oxidising agents

For universal applications. With high cleaning performance. Removes stubborn oily residues and other organic residues.

Container	1000 kg	4112 03	Canister	10 l	4112 30
Drum	280 kg	4112 13	Canister	5 l	4112 33
Canister	25 kg	4112 26			

neodisher® LaboClean FT

Alkaline detergent – liquid concentrate – With oxidising effect, free of surfactants

Especially suitable for the residue-free cleaning of glassware for cell and tissue cultures, pharmacy glass bottles and infusion flasks as well as glassware for microbiology and nuclear medicine. Removes residues of culture media, residues of cell and tissue cultures, blood, proteins, radioactive contamination as well as other organic residues.

Container	1000 kg	4100 03	Canister	12 kg	4100 30
Drum	260 kg	4100 13	Canister	5 l	4100 33
Canister	25 kg	4100 26			

neodisher® LaboClean FM

Alkaline intensive detergent – liquid concentrate – Free of phosphates and oxidising agents

Highly emulsifying and dispersing action. Especially suitable for the removal of oil, fat, resins and paraffin.

Canister	20 l	4066 26	Canister	5 l	4066 33
----------	------	---------	----------	-----	---------

neodisher® FA

Alkaline detergent – liquid concentrate – Free of surfactants and oxidising agents

Excellent cleaning performance and material compatibility.

Drum	270 kg	4101 13	Canister	10 l	4101 30
Canister	25 kg	4101 26	Canister	5 l	4101 33

Automated Cleaning of Laboratory Glassware and Utensils

neodisher® LaboClean A 8

Alkaline universal detergent – powder – Free of surfactants

For universal applications. Excellent cleaning performance and dirt carrying capacity. Removes blood, serum, food residues, pharmaceuticals, paints, varnishes, gelatine and other organic residues.

Bucket	25 kg	4102 66	Bottles	12 x 1 kg	4102 87
Bucket	10 kg	4102 76			

neodisher® LaboClean F

Highly alkaline intensive detergent – powder – Free of phosphates, surfactants and oxidising agents

With high cleaning performance. Especially suitable for the removal of resins, organic colourants and residues of felt-tip pens. Good complexing and dispersing action.

Bucket	25 kg	4105 66	Buckets	4 x 3 kg	4105 81
--------	-------	---------	---------	----------	---------

neodisher® LaboClean LA

Highly alkaline intensive detergent – powder – Free of oxidising agents

With a highly emulsifying, dispersing and defoaming action. Especially suitable for the removal of fat, oil, resins and paraffin.

Bucket	25 kg	4106 66	Bottles	12 x 1 kg	4106 87
Buckets	4 x 3 kg	4106 81			

neodisher® LaboClean UW

Alkaline detergent – powder – Free of phosphates

Especially suitable for the automated cleaning of laboratory glassware and utensils in water analysis laboratories, in serological institutes and in the phosphates industry. Especially for laboratories that carry out sensitive analyses, where residues of phosphorous compounds would adulterate analysis results.

Bucket	10 kg	4109 76
--------	-------	---------

neodisher® LaboClean GK

Mildly alkaline detergent – powder – Free of surfactants

Especially suitable for the automated cleaning of glassware for cell and tissue cultures, in the field of microbiology as well as nuclear medicine and isotope laboratories. Removes residues of culture media, residues of cell and tissue cultures, radioactive contamination, organic colour and pigment contamination. Easy to rinse off.

Bucket	10 kg	4103 76
--------	-------	---------

neodisher® LaboClean PLM

Mildly alkaline detergent – powder – Free of oxidising agents

Especially suitable for the removal of the basic components of creams resp. lotions and easily emulsified residues. With defoaming properties.

Bucket	10 kg	4122 76	Bottles	12 x 1 kg	4122 87
--------	-------	---------	---------	-----------	---------

neodisher® MA

Mildly alkaline detergent – powder – Free of oxidising agents

Excellent cleaning performance and material compatibility.

Bucket	10 kg	4107 76	Bottles	12 x 1 kg	4107 87
--------	-------	---------	---------	-----------	---------

Automated Cleaning of Laboratory Glassware and Utensils

Automated Cleaning

... is a gentle reprocessing method. The short contact time with the detergent prevents glass corrosion. At the same time high temperatures in the final rinse ensure good and rapid drying. The process can – if required – be standardised, validated and documented.

Overview	neodisher® EM	neodisher® Entschäumer S	neodisher® N	neodisher® Z
cleaning enhancing	●			
defoaming properties	●			
foam preventing		●		
neutralisation			●	●

neodisher® EM

Cleaning additive – liquid concentrate –

Enhances the cleaning performance of alkaline and acidic detergents, in particular when removing solid residues, paraffin, oil and fat in watery solutions. With emulsifying, dispersing and defoaming properties.

Canister	5 l	4300 33
----------	-----	---------

neodisher® Entschäumer S

Defoaming agent – liquid concentrate –

Prevents foaming. Even at low temperatures a small dose is sufficient. Based on emulsified silicone oils.

Canister	10 l	4301 30	Bottles	10 x 1 l	4301 48
----------	------	---------	---------	----------	---------

neodisher® N

Acidic neutralising agent and detergent – liquid concentrate – Free of surfactants

For neutralising any carried over alkaline residues or for acidic pre-cleaning resp. cleaning of laboratory glassware. Removes lime and other acid-soluble residues. Easy to rinse off. Based on phosphoric acid.

Container	1000 kg	4201 03	Canister	12 kg	4201 30
Drum	290 kg	4201 13	Canister	5 l	4201 33
Canister	25 kg	4201 26	Bottles	12 x 1 l	4201 87

neodisher® Z

Acidic neutralising agent and detergent – liquid concentrate – Free of surfactants and phosphates

For neutralising any carried over alkaline residues and for removing acid-soluble residues during the automated cleaning of laboratory glassware. Especially for laboratories that carry out sensitive analyses, where residues of phosphates and surfactants would adulterate sensitive analyses. Based on organic acids. Material compatible.

Drum	240 kg	4202 13	Canister	5 l	4202 33
Canister	20 l	4202 26	Bottles	12 x 1 l	4202 87
Canister	10 l	4202 30			

Manual Cleaning of Laboratory Glassware and Utensils

Manual Cleaning

Manual Cleaning	neodisher® LM 2	neodisher® LM 3	neodisher® LM 10	neodisher® PM 5
liquid	●	●	●	
low-foam	●	●	●	
free of phosphates		●		
oxidising effect			●	●

Manual Cleaning

... enables targeted treatment of stubborn soiling. The detergents can be varied depending on the soiling. Individual detergent selection ensures optimum, material-compatible reprocessing.

neodisher® LM 2

Mildly alkaline cleaner – liquid concentrate –

For the manual cleaning and pre-cleaning of laboratory glassware in ultrasonic and immersion baths, as well as for the cleaning of pipettes in special washers and the wet autoclaving of laboratory glassware before automated cleaning. Low foam, easy to rinse off.

Canister	20 kg	4403 26	Canister	10 l	4403 30
----------	-------	---------	----------	------	---------

neodisher® LM 3

Alkaline cleaner – liquid concentrate – Free of phosphates

For manually cleaning and pre-cleaning of laboratory glassware as well as for the cleaning of pipettes and viscometers in special washers. Especially suitable for the cleaning of laboratory glassware in water, phosphates and metal laboratories and laboratories where enzymatic and serological analyses are conducted. Also suitable for automated cleaning. Low foam.

Canister	10 l	4400 30	Bottles	12 x 1 l	4400 49
----------	------	---------	---------	----------	---------

neodisher® LM 10

Alkaline cleaner – liquid concentrate – With oxidising effect, free of surfactants

For the cleaning and pre-cleaning of laboratory glassware in immersion baths and for decontaminating objects with radioactive residues. Even stubborn organic residues are easily removed. Non-foaming.

Canister	10 l	4401 30
----------	------	---------

neodisher® PM 5

Mildly alkaline cleaner – powder –

For the manual cleaning of laboratory glassware in immersion baths. Self-acting cleaning performance against blood, proteins, food residues, inorganic and organic residues. Excellent material compatibility. Very easy to rinse off.

Buckets	4 x 3 kg	4402 81
---------	----------	---------

Cleaning in Animal Housing

Cleaning of Equipment in Animal Housing

... can generally be carried out with acidic, pH-neutral or alkaline process chemicals. For bottles acidic detergents are suitable.

Cleaning	neodisher® LaboClean FLA	neodisher® N	neodisher® LM 2
automated	●	●	
manual			●
alkaline	●		●
acidic		●	
free of surfactants	●	●	
free of active chlorine	●	●	●

neodisher® LaboClean FLA

Alkaline detergent – liquid concentrate – Free of surfactants and active chlorine

For the automated cleaning of animal cages. Removes organic residues, especially suitable for cleaning animal cages for mice or rats made of polysulfone, polycarbonate, polyetherimide, polyphenylsulfone or stainless steel.

Container	1000 kg	4112 03	Canister	10 l	4112 30
Drum	280 kg	4112 13	Canister	5 l	4112 33
Canister	25 kg	4112 26			

neodisher® N

Acidic detergent – liquid concentrate – Free of surfactants

For the automated cleaning of animal cages and bottles. Removes acid-soluble residues like urine scale or lime. Especially suitable for animal cages and bottles made of polysulfone, polycarbonate, polyetherimide, polyphenylsulfone or stainless steel. Very easy to rinse off. Based on phosphoric acid.

Container	1000 kg	4201 03	Canister	12 kg	4201 30
Drum	290 kg	4201 13	Canister	5 l	4201 33
Canister	25 kg	4201 26	Bottles	12 x 1 l	4201 87

neodisher® LM 2

Mildly alkaline cleaner – liquid concentrate –

For the manual cleaning and pre-cleaning of animal cages and utensils in immersion baths. Removes inorganic and organic residues like encrusted blood, protein and excrement. Low foam, easy to rinse off.

Canister	20 kg	4403 26	Canister	10 l	4403 30
----------	-------	---------	----------	------	---------

Cleaning in Animal Housing

Rinse Aids

... support drying and avoid the formation of droplets and stains. Acidic rinse aids bind the residual water hardness and neutralise the alkalinity of softened rinse water and alkaline detergent residues. Suitable rinse aids prevent damage to synthetic materials such as polycarbonate or polysulfone.

neodisher® Polyklar

Rinse aid – liquid concentrate – Free of surfactants

For the rinsing of animal cages during automated cleaning. Especially suitable for animal cages made of polycarbonate, polysulfone, polyphenylsulfone and polyetherimide. Acidic formulation; neutralises alkaline residues and prevents a material attack on polycarbonate and polysulfone during subsequent autoclaving. Prevents stress cracks during autoclaving.

Drum	200 kg	4019 13	Canister	10 l	4019 30
------	--------	---------	----------	------	---------

neodisher® TS

Rinse aid – liquid concentrate –

For quick and spot-free drying during automated cleaning of animal cages. Significantly shortens the drying time. Especially for animal cages made of polycarbonate, polyetherimide or stainless steel. Acidic formulation; neutralises alkaline residues and prevents a material attack on polycarbonate during subsequent autoclaving.

Container	800 kg	3109 03	Canister	10 l	3109 30
Drum	200 kg	3109 13	Bottles	12 x 1 l	3109 49
Canister	20 kg	3109 26			

Industrial Cleaning of Parts

The Advancement

... of modern washing technology enables the automated cleaning of parts and elements from various industrial production processes, e.g. electronic circuit boards, soldering frames, sensitive optics, air bag components or plastic transport boxes. Dr. Weigert has developed suitable programmes and detergents together with the manufacturers of the washers disinfectors and users.

Cleaning	neodisher® ProTech 5	neodisher® ProTech 8	neodisher® ProTech 9	neodisher® ProTech 10	neodisher® FS
pH-neutral	●				
free of silicone compounds	●	●	●	●	●
free of oxidising agents	●	●	●	●	●
free of phosphates	●			●	●
foam reducing/defoaming	●	●	●		●

neodisher® ProTech 5

pH-neutral detergent – liquid concentrate – Free of phosphates, oxidising agents and silicone compounds

For the automated cleaning of circuit boards, housings, parts made of plastic or metal or other highly sensitive materials. Especially suitable for the removal of flux and dust. Excellent material compatibility, with foam reducing properties.

Canister 20 l 4014 26 | Canister 5 l 4014 33

neodisher® ProTech 8

Mildly alkaline detergent – powder – Free of oxidising agents and silicone compounds

For the automated cleaning of soldering frames and parts made of stainless steel, aluminium, ceramics, glass and alkaline compatible plastics. Especially suitable for removing flux and colophony. Material compatible, with excellent defoaming properties. Good compatibility with hardness constituents in water.

Bucket 8 kg 4013 76

neodisher® ProTech 9

Alkaline detergent – liquid concentrate – Free of oxidising agents and silicone compounds

For the automated cleaning of circuit boards and other parts made of metals and plastics compatible with alkali. Especially suitable for removing flux and dust. Good wetting and defoaming action.

Canister 5 l 4011 33

neodisher® ProTech 10

Highly alkaline detergent – liquid concentrate – Free of phosphates, complexing agents, active chlorine and silicone compounds

For the automated cleaning of finished parts such as coated data glass plates and for parts in the metal industry. Removes saponifiable and alkali-soluble residues.

Canister 25 kg 3313 26

neodisher® FS

Highly alkaline detergent – liquid concentrate – Free of phosphates, active chlorine and silicone compounds

For the automated cleaning of finished parts such as soldering frames made of stainless steel, plastic transport boxes as well as laboratory glassware. Removes alkali-soluble resp. alkali-saponifiable residues such as colophony, metallic abrasion, oil and lipid. With excellent dirt-carrying capacity. Defoaming action.

Drum 280 kg 4116 13 | Canister 25 kg 4116 26

neodisher® ProTech 16

Corrosion protective agent and rinse aid – liquid concentrate – Free of oxidising agents and silicone compounds

For the protection against corrosion during automated cleaning of finished parts or semi-finished parts made of corrosive-sensitive types of steel. With good wetting properties and foam reducing action. Suitable for use as temporary corrosion protection of metal surfaces.

Canister 5 l 4017 33

Surface Cleaning and Surface Disinfection

neoform® MED AF*

Aldehyde-free disinfecting cleaner - liquid concentrate - Bactericidal, yeasticidal, active against enveloped viruses

For cleaning and disinfecting medical devices and medical inventory. Application: wiping method. VAH¹ listed and included in the IHO² list of virucidal products.

Canister 5 l 4056 35

neoform® MED FF*

Disinfecting cleaner – liquid concentrate – Bactericidal, tuberculocidal, yeasticidal, virucidal, active against C. difficile

For cleaning and disinfecting medical devices and medical inventory. Application: wiping method. VAH¹ listed and included in the IHO² list of virucidal products.

Canister 5 l 4057 35

neoform K plus*

Disinfecting cleaner for surfaces and equipment – liquid concentrate – Free of perfume and colouring agents – Bactericidal, yeasticidal, active against enveloped viruses

For the combined cleaning and disinfection in a single step for an excellent cleaning performance and a safe disinfection. VAH¹ listed and included in the IHO² list of disinfectants.

Drum 200 kg 3223 13 | Bottles 6 x 2 l 3223 42
Canister 10 l 3223 30

neoform® MED rapid

Rapid disinfectant – ready-to-use solution – Bactericidal, yeasticidal, tuberculocidal, active against enveloped viruses, active against Norovirus

Alcohol-based solution for disinfecting medical devices. Application: wiping method and spraying devices. VAH¹ listed and included in the IHO² list of virucidal products.

Bottles 12 x 0.75 l 4070 47

neoform K Spray*

Rapid disinfectant for surfaces and equipment in the food area – ready-to-use solution – Bactericidal, fungicidal, active against enveloped viruses, active against Norovirus

For the rapid disinfection of precleaned working surfaces and equipment. Dries residue-free – no rinsing necessary. DVG³ listed. Included in the IHO² list of disinfectants.

Canister 10 l 3638 30 | Bottles 12 x 0.75 l 3638 47

* Use disinfectants safely. Always read the label and product information before use.

Surface Cleaning

neouniversal®

All-purpose detergent – Liquid concentrate –

For the manual cleaning of floors and other waterproof surfaces. Universally applicable. Removes slight soiling such as fat and food residues as well as oils and chemical deposits in laboratories.

Canister	5 l	3404 35	Bottles	12 x 1.0 l	3404 49
----------	-----	---------	---------	------------	---------

neodisher® shine

Cleaner for glass and shiny surfaces – Ready-for-use solution –

Removes finger prints, water strains and residues of insects from glass and shiny surfaces. Rapid and streak-free cleaning.

Bottles	12 x 0.75 l	3231 47
---------	-------------	---------

neoblank®

Stainless steel care – Ready-for-use solution –

Removes fingerprints, streaks and strains from stainless steel surfaces reliably and gently. Prevents re-soiling. Especially suitable for the food sector.

Bottles	12 x 0.75 l	3303 47	Drum	180 kg	3303 13
Canister	5 l	3303 33			

Hand Hygiene

triformin® wash

Washing lotion

For hand and body washing. Excellent skin tolerance, confirmed by dermatological certificates. Especially suitable for normal, dry and sensitive skin. Based on natural plant-based raw materials, with aloe vera and natural bee honey. Free of soap and alkali. Dosing via triformin® dispenser 1.0 and triformin® dispenser 0.5.

Canister	5 l	3173 35	Bottles	20 x 500 ml	3173 63
Bottles	10 x 1 l	3173 48			

triformin® safeDIS*

Hand disinfectant – ready-to-use solution –

Bactericidal, yeasticidal, virucidal including norovirus

Alcohol-based, perfume-free hand disinfectant for hygienic hand disinfection in all parts of the food processing sector. Excellent skin tolerance, dermatologically certified. VAH¹ registered. Dosing via triformin® dispenser 1.0 and 0.5.

Canister	10 l	3242 30	Bottles	20 x 500 ml	3242 63
Bottles	10 x 1 l	3242 48			

triformin® care

Skin care cream

For skin care after work and during breaks. Excellent skin tolerance, confirmed in dermatological certificates. Free of perfumes. Dosing from the 500 ml bottle via triformin® dispenser 0.5.

Bottles	6 x 500 ml	3105 39	Tubes	12 x 100 ml	3105 15
---------	------------	---------	-------	-------------	---------

triformin® protect

Skin protection cream

Protects the skin from drying out. Long-lasting protection and intensive care. Excellent skin tolerance, confirmed by dermatological certificates. Free of perfumes. Dosing from the 500 ml bottles via triformin® dispenser 0.5.

Bottles	6 x 500 ml	3102 39	Tubes	12 x 100 ml	3102 15
---------	------------	---------	-------	-------------	---------

Dosing Solutions

Intelligent Dosing – Process Safety – Data Management:

Modern dosing system solutions for automatically supplying and monitoring washer disinfectors with process chemicals are a pre-requisite for safe processes, validation and lasting optimal cleaning results.

Our specialists design, manufacture, install and maintain equipment from the simple dosing units to central dosing systems for several washer disinfectors and highest requirements with data recording and data management. High quality, functionality and professionalism are our aims. Plan your new installations and conversions together with us right from the beginning.

Central Dosing Systems

Central dosing systems supply several washer disinfectors with process chemicals in larger washing installations. The installation of the dosing systems can be independent of the location of the washer disinfectors. The use of bulk containers is more economical and more user-friendly in terms of safe operation. The laborious handling of small canisters is eliminated. Dosing is done in a closed system! The modular **weigomatic®** concept combines tailor-made solutions with a high degree of flexibility and many options for later extensions. We design the optimal dosing unit to suit your needs!

The **weigomatic®** data management system integrates important quality factors in cleaning and disinfecting processes. The memory unit of the **weigomatic®** data management system continuously records and documents all relevant data such as the running times of the washer disinfectors and consumed quantities of process chemicals. This data is clearly displayed on a PC or a touch panel and can be analysed and evaluated locally or via the Internet. This guarantees highest efficiency and early detection of errors and breakdowns – a “must” for optimum process safety.

weigomatic® DOS Manager

Combined dosing and monitoring system for adjusting the dosage of liquid process chemicals via **weigomatic®** buffer tanks in washer disinfectors. The integrated memory unit of the **weigomatic® DOS Manager** allows the constant recording of specific operating data, e.g. quantities consumed and periods of operation – which can be clearly evaluated and documented via a PC. Recognising malfunctions early secures economical, optimal and safe processes.

weigomatic® identSYSTEM

The system enables automatic touchless product identification which prevents mix-ups. Therefore, the system not only ensures intuitive handling when changing product containers but first and foremost guarantees an absolutely reliable start of a successful cleaning and disinfection process. The operating principle is ingeniously simple and is based on the consistent use of RFID technology (Radio Frequency Identification). Containers fitted with **weigomatic®** RFID transponder are individually coded. The transmitted signal is read by a receiver fitted on the dosing station. This ensures that the correct process chemical is used. The automatic dosing of process chemicals is activated and all quality-relevant data and parameters which are important for the cleaning process are recorded, such as e.g. time and cycle of the container exchange as well as batch number and expiry date of the process chemical.

Dosing Solutions

Mixing Equipment

Various **neomatik®** mixing equipment for the manufacturing and spraying of ready-for-use cleaner and disinfectant solutions are available. Depending on the device used one or more detergent or disinfectant concentrates can be connected to the device. Dosing is done via integrated dosing pumps or injectors.

neomatik® mediDOS

The microprocessor-controlled dosing device serves to produce ready-to-use detergent and disinfectant solutions from liquid concentrates for manual application. The mixing device with a robust stainless steel casing for wall mounting can be easily operated and features an automatic switch-off in the case of product depletion as well as fill level monitoring.

neomatik® mediDOS complies with the RKI recommendations for decentralised disinfectant dosing devices.*

For more information, please visit www.drweigert.com

Dosing and Controlling System – Reliable and High-Performance:

The precise dosing of process chemicals and the recording of important process data are all essential for process validation. Dr. Weigert has been leading the way in the development of professional system solutions for decades. Based on this experience, we offer tailored concepts and solutions that guarantee the highest safety, cost-effectiveness and simplest handling.

Those responsible for hygiene know how important it is to be able to rely on concepts that ensure long-term continuous safety. Dosing and controlling technology from Dr. Weigert continues to evolve on the basis of the latest requirements and decades of experience.

Dosing Dispensers and Hand Pumps for triformin® Products

Dosing dispenser	
triformin® dispenser 1.0 gold* for dosing from 1 l bottles	Art.-No. 9810 51
triformin® dispenser 0.5 gold* for dosing from 500 ml bottles	Art.-No. 9810 21
triformin® dispenser 1.0 silver** for dosing from 1 l bottles	Art.-No. 9810 52
triformin® dispenser 0.5 silver** for dosing from 500 ml bottles	Art.-No. 9810 22
triformin® dispenser 1.0 basic*** for dosing from 1 l bottles	Art.-No. 9810 53
triformin® dispenser 0.5 basic*** for dosing from 500 ml bottles	Art.-No. 9810 23
Hand pumps	
for 1 l bottles triformin® wash, triformin® safeDIS	Art.-No. 9802 00
for 0.5 l bottles triformin® wash, triformin® safeDIS	Art.-No. 9802 03
for 0.5 l bottles triformin® care and triformin® protect	Art.-No. 9802 02
Wall bracket	
for 1 l bottles triformin® wash, triformin® safeDIS	Art.-No. 9810 56
for 0.5 l bottles triformin® wash, triformin® safeDIS, triformin® care, triformin® protect	Art.-No. 9810 59

Systematic Service

Ongoing Support

Support is one of our most important tasks: we make it our aim to impress with our performance and to find tailored solutions to individual requirements. Our systematic service provides ongoing support so that you can continually achieve first-class results. Dosing systems are maintained regularly. We also help train your staff, creating the right environment for safe processes.

Products and System Solutions under One Roof

... are vital when it comes to automated cleaning processes. Hygiene safety combined with highest cost-efficiency and value maintenance of sensitive materials – with **neodisher®** these aims are effortlessly achieved. For every customer Dr. Weigert develops individual solutions which exceed the mere selection of the right detergent. A thorough analysis of the status quo stands at the beginning of each hygiene concept. We determine the causes for material changes and in addition carry out microscopical surface analyses and systematic examinations. On this basis we give practice-oriented recommendations in order to prevent new discolourations etc. – for lasting first-class results.

Your Partner for Perfect Hygiene.

In terms of the development of products and processes, **neodisher®** is always one step ahead. A close partnership with the manufacturers of washers and wash ware is the basis for developing innovative process chemicals and devising new processes.

weigomatic® dosing systems guarantee economical and efficient use. Tailored solutions for practical applications – for increased safety and preservation of value!

Also for laboratory hygiene and personnel hygiene Dr. Weigert offers perfect solutions which prove their worth in practice on a daily basis.
