**Dazzling Efficiency for Your Dishes –
the New weigomatic® compact SMART
Dosing System**

Sparkling clean dishes? Absolutely! Environmentally friendly and cost-effective? No problem! Individually adjustable? Of course! Safe and easy to use? Definitely! Hygienic and modern? Clearly!

The **weigomatic® compact SMART** dosing system is the innovative answer to the question of how to cost-effectively and efficiently clean items in dishwashers. The use of Dr. Weigert's cartridge system enables a detergent, a cleaning additive and a rinse aid to be perfectly dosed in parallel. EU Ecolabel products and those exempt from hazard labelling requirements can be selected. Optional cleaning additives provide time-controlled and thus need-based additional power.

A great deal of attention was placed on safe and user-friendly operation, hygienic and shapely design and coherent data management for this closed system. Combined with Dr. Weigert's service, this Made in Germany system solution is the all-in-one, smart answer to the challenges in your kitchen.

Not a Machine – a Whole Concept:

Maximum Performance in the Smallest Space.

Efficiency:

Optimal interaction
of all system components:

- First-class dosing and control technology
- High-quality cleaning products
- Top consulting
- Competent service
- Personal training

Space-Saving:

- Minimal space required thanks to innovative and compact construction
- Easy, space-saving storage of cartridges

XS

Data Management and Control Technology:

- Ensures simple and smooth operation
- Permanent monitoring of operation and service performance
- Recording of temperature and water consumption if needed
 - Optimised dosing through integrated conductivity control

First-Class Product Portfolio:

- You can find the right products for all cleaning challenges in the extensive neodisher® range
- Highly concentrated detergents, e.g. to remove starch residue, and special rinse aids, e.g. for improved drying of plastics, and much more
 - Detergents and rinse aids exempt from hazard labelling requirements

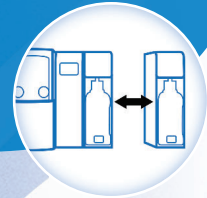

Top Cleaning Performance:

- Proven to have the best washing performance with top results
- Time-controlled intense cleaning of particularly stubborn stains, e.g. starch, tea and coffee residues
- Optional additives to boost cleaning and defoam
- The cartridge system works using highly concentrated detergents, so less consumption

Modular Design:

- The module system provides maximum flexibility upon installation of the dosing system
- An additive module is available if needed and can be added later on

Practical and Easy to Fill:

- Optimal protection of personnel – no heavy lifting
- Easy and intuitive to operate
- Light cartridges and rinse aid / additive bottles with practical handles enable containers to be readily exchanged without the risk of mix-ups
- Closed system – no contact with product

EU Ecolabel Products:

- Dr. Weigert's proven high performance and 100% environmentally friendly

Functional and Attractive Design:

- Shape of design prevents soiling
- Hygienic design – easy cleaning and care
- Rounded shaping with no corners or edges
- Attractive blend of design and function
- Compact design – dosing and control components not split up
- State of the art: on par with all modern commercial dishwashers

Smart Operation – **Easy and Safe.**

Think Small Is the New Big:

The design for exchanging cartridges on the **weigomatic® compact SMART** is particularly practical and simple. At the same time, the closed system ensures optimal protection of personnel. The **weigomatic® compact SMART** is thus a clean solution for every kitchen in every regard.

Discover the Latest Simplification for Your Kitchen.

With higher standards and more items needing washing, you need a flexible and efficient solution that is optimally integrated into the existing structure of the kitchen and is easy and safe to operate. The **weigomatic® compact SMART** was developed precisely for this need. The dosing system is even easy and safe for untrained employees or temporary staff to fill.

As a developer and manufacturer of detergents and disinfectants and a competent partner in the field of hygiene, we also manufacture custom and modern dosing technology. Our expertise, our experience and innovative ideas – gained in part from practical customer communication – have been fed into the **weigomatic® compact SMART** dosing system.

Detergents

5 kg cartridges

Additives

2 l bottles

Rinse aids

2 l bottles

The weigomatic® compact SMART Also Includes:

1. Control Unit

The dosing settings can be programmed and optimised for need-based use according to time, day and type of soiling, e.g. for breakfast and lunch dishes.

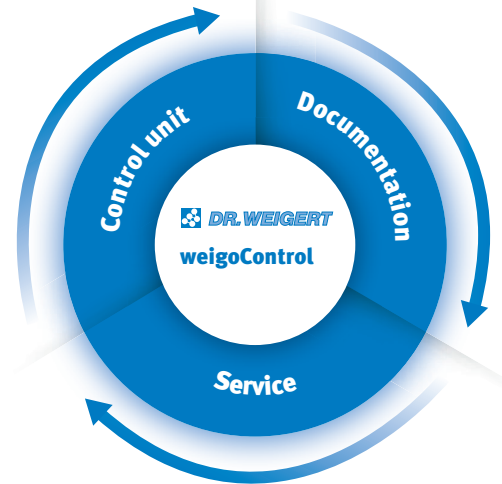

2. Documentation

Recording and automatically documenting operation and consumption data. Unlike many other systems, consumption data are actually recorded with the **weigomatic® compact SMART** and are not extrapolated using other parameters. This yields a reliable basis for sustainable quality assurance and for continual improvement processes.

3. Service

Our neodisher® specialist advisors will select a detergent and concentration based on your particular situation, e.g. by determining water hardness and titration. They will analyse and interpret the operation and consumption data recorded and make the corresponding adjustments to dosage settings as needed. They will also check that the **weigomatic® compact SMART** is functioning smoothly and provide the corresponding maintenance.

Continual Support:

In order to consistently achieve top-notch results, dosing systems receive regular maintenance. Microbiological tests monitor and document compliance with hygiene standards. And with our staff training, we create the conditions for you to have safe processes.

Experience Dr. Weigert's Personal Support in Your Own Kitchen.

After all, instead of a telephone hotline, our service is personal advice and on-site support from our neodisher® specialist advisors. And customer service is crucial, particularly in commercial kitchens, where hygiene plays a pivotal role. Whether for automated warewashing or kitchen and personnel hygiene, safety is offered by a partner that, alongside you, can shine with efficient products and suitable expertise. Dr. Weigert is this kind of partner – one that you can rely on to help you assume responsibility for hygiene.

Contact us – we will be happy to visit you.

The Suitable Dishwashing Detergents for the weigomatic® compact SMART

neodisher® BioClean Pulver

Enzymatic detergent – non-corrosive, non-irritant, non-hazardous

First-class cleaning performance even with dried-on food and starch residues.
With active oxygen for reliable cleaning results even with coffee and tea residues.
Free of active chlorine for a pleasant atmosphere.

Cartridges 2 x 5 kg 3217 72

neodisher® compact 100

Universal detergent

Reliably removes heavily dried-on starch, coffee and tea residues. With active chlorine.

Cartridges 2 x 5 kg 3220 72

neodisher® compact 140

Intensive detergent

Effectively removes particularly stubborn food residue. With defoaming properties.
Free of active chlorine for a pleasant atmosphere.

Cartridges 2 x 5 kg 3209 72

neodisher® compact 180

Intensive detergent – EU Ecolabel certified

With intensive cleaning action, even removes particularly stubborn food residues.
Reliably prevents starch build-up on washed items. Free of active chlorine for a pleasant atmosphere.

Cartridges 2 x 5 kg 3021 72

neodisher® compact 220

Intensive detergent

Effectively removes heavily dried-on food residue as well as tannin residue and stubborn starch residue. With defoaming properties. Can be used for any water hardness. Phosphate-free and free of active chlorine for a pleasant atmosphere.

Cartridges 2 x 5 kg 3174 72

The Suitable Additives and Rinse Aids for the weigomatic® compact SMART

neodisher® Alka 280

Intensive detergent – liquid concentrate

EU-Ecolabel certified dishwashing detergent with intensive cleaning action. Even removes particularly stubborn starch residue. Free of phosphates and active chlorine.

Bottles 6 x 2 l 3129 41

neodisher® D 20

Additive for enhanced cleaning – liquid concentrate

Supports the cleaning action of alkaline detergents, particularly for stubborn coffee and tea residues.

Bottles 6 x 2 l 3120 41

neodisher® Entschäumer S

Defoaming agent – liquid concentrate

Prevents foaming – a small dose is sufficient even at low temperatures. Based on emulsified silicone oils.

Bottles 6 x 2 l 4301 41

neodisher® BioRinse

Rinse aid – liquid concentrate

EU-Ecolabel certified rinse aid. Acidic formulation – prevents lime deposits. Suitable for all types of dishes and glasses.

Bottles 6 x 2 l 3181 42

neodisher® BioKlar

Rinse aid – liquid concentrate

pH-neutral, universal application, with special foam-reducing properties. Suitable for all types of dishes.

Bottles 6 x 2 l 3214 42

neodisher® compact klar

Rinse aid – high concentrate

Very efficient. Acidic formulation. Suitable for dishes made of porcelain, stainless steel and many plastics.

Bottles 6 x 2 l 3098 42

neodisher® TN

Rinse aid – liquid concentrate

pH-neutral, particularly suited for fast, streak-free drying of porcelain and plastic dishes.

Bottles 6 x 2 l 3115 42
