

# neodisher® Alka 200

## Alkaline cleaning agent for use in dishwashers – free of phosphates and active chlorine

Liquid concentrate

### Fields of application:

- Use in dishwashers especially to solve special cleaning problems with starch or protein deposits

### Performance spectrum:

- Removes all types of food residues
- Suitable for commercial dish washing machines
- Suitable for hotel china, stainless steel and ordinary plastics
- Not suitable for aluminum, eloxal und light alloys
- Only for use with soft water
- Can be used in component method

### Special properties:

- Free of phosphates and active chlorine
- High alkalinity
- Very good dispersing power result in rapid soaking and removal of starch and protein residues and also inhibits re-deposition

### Application and dosage:

Use in dishwashers 2 - 4 ml /l.

neodisher Alka 200 can be used both as the sole cleaning agent and in combination with a special detergent component for tea and coffee residues.

The latter method involves the parallel addition of neodisher Alka 200 and neodisher D 20, using between 1 and 3 ml/l of neodisher D 20 depending on the properties of the coffee and tea residues to be removed.

The component method with neodisher Alka 200 and neodisher D 20 has the advantage that each product need only be added in the amount required based on the residues to be removed from the dishes. Therefore this method is particularly economical.

### Notes on application:

- Only for professional use.
- The neodisher® Alka 200 working solution has to be rinsed out completely by sufficient rinsing.
- Do not mix with other products.
- Storage and transport only permitted in original packaging.

### Technical data:

pH-range	12.0 – 12.7 (2 - 4 ml/l, determined in deionised water, 20 °C)
Density	1.4 g/cm <sup>3</sup> (20 °C)
Titration factor	0.24
Viscosity	< 50 mPa·s (concentrate, 20 °C)
Conductivity	approx. 7.5 mS/cm (3 g/l, determined in deionised water, 60 °C)

### Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:  
< 5 % phosphonates, polycarboxylates

### Storage information:

The product is sensitive to frost.
