neodisher® defoam

Defoamer

Liquid concentrate

Fields of application:

- Suitable for foam suppression in commercial dishwashers

Performance spectrum:

- Excellent defoaming performance even when the wash solution is heavily contaminated with protein, fat and oil
- Effective defoaming from tempertures as low as 30 °C
- Improved cleaning performance thanks to its emulsifying effect
- Suitable for use as an additional component with all neodisher cleaning products for pre-wash and main wash

Special properties:

- Versatile use
- Highly concentrated and therefore economical to use
- Free from silicone oils

Application and dosage:

neodisher defoam is used in commercial dishwashers in addition to the neodisher cleaning product for pre-wash or main wash cycles. Depending on the type and quantity of foaming contaminants, a dosage of 0.05–1.0 ml/l via suitable dosing equipment or, where necessary, manually, is sufficient.

For dishwashers with a water change cycle, dosing takes place during or immediately after the water inlet. In the case of tank machines a suitable metering pump ensures continuous dosing.

General instructions for use:

- For professional use only.
- The neodisher defoam working solution has to be rinsed off completely.
- Rinse out dosing system including suction hose with water before changing product
- For economical and controlled dosing, we recommend using automatic dosing devices or systems. Please contact us.
- The instructions and operating guidelines provided by the machine manufacturers must be followed.
- Do not mix with other products whilst in concentrated form.
- Do not transfer to other containers, bottles, etc.

Technical data:

pH-value	4.8 (1% solution in fully demineralised water, 20 °C)
Density	approx. 1.0 g/cm³ (20 °C)
Viscosity	approx. 350 mPa·s (concentrate, 20 °C)

Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:
> 30% non-ionic surfactants
< 5 % aliphatic hydrocarbons

Storage instructions:

During storage, the temperature must be maintained between -20 °C and 30 °C. Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

neodisher® defoam

Hazard and precautionary statements:

neodisher defoam is not a hazardous product according to the CLP-Regulation (EC) No 1272/2008.

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to Safety Data Sheet.

For further safety information see Safety Data Sheets. These are available at www.drweigert.com under the headline “Service/Downloads”.
