

# **Cleaner for floors**

# Liquid concentrate

# Fields of application:

 For the cleaning of floors and walls in all food processing fields such as professional kitchens, butcher's shops and bakeries.

### Performance spectrum:

- Effectively removes organic and inorganic residues such as animal and vegetable fat, protein compounds and other soiling.
- Suitable for use with the common floor wiping method as well as for cleaning machines and single disc machines
- Suitable for all alkaline-compatible surfaces made of chrome nickel steel, alkali-compatible rubber and synthetic materials (e.g. PVC, epoxy resin and methylmedacrylage) as well as for tiles and artificial stone.

# Special properties:

- Mildly alkaline and low-foam formulation.
- Excellent cleaning performance; easy-torinse for residue-free, slip-proof surfaces
- Excellent material compatibility.

# Application and dosage:

Dilute neodisher floor standard according to the below-mentioned dosing recommendations.

Apply the solution on the surfaces to be cleaned and allow the product to act for some minutes.

Solve particularly stubborn soiling with a scrubbing brush or a brush rotating machine and then rinse the solved dirt particles with plenty of fresh water or extract them. The maximum working temperature is 50 °C.

Light soiling	0.2 – 0.5%	2 ml/l –
		5 ml/l
Heavy soiling	0.5 – 2.0%	5 ml/l –
		20 ml/l

#### Notes on application:

- For professional use only!
- For an economical and controlled dosage the use of manual dosing ancillaries such as mixing equipment or dosing accessories is recommended. Please contact us.
- Surfaces that come into contact with food must be rinsed with drinking water after each cleaning and disinfection to remove residues.
- Do not mix with other products.
- Storage and transport is only permitted in original packaging.

# neodisher® floor standard

#### Technical data:

pH-range	10.8 - 11.7 (2.0 - 20 ml/l, determined in deionised water, 20 °C)	
viscosity	< 10 mPa s (concentrate, 20 °C)	
density	approx. 1.1 g/cm³ (20°C)	

# Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:

< 5 % anionic surfactants, non-ionic surfactants, 5 - 15 % phosphates also: perfume (limonene, citral)

# Storage information:

Always store at a temperature between 0 °C and 30 °C. Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol ☑. Storing below +6 °C might lead to reversible clouding which will disappear under warmer storage conditions.

Changes in the colour of the product may occur when storing in factory-sealed trade units. This is no quality defect and has no impact on the properties of the product.

#### Hazard and precautionary statements:

For safety information see Safety Data Sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.
