

neomoscan[®] G 7

Conveyor belt lubricant for the food industry – Liquid concentrate

Main fields of application:

Lubrication of conveyor belts for glass and PET bottles, cans and cardboard packaging in breweries and the beverage and food industry as well as in the dairy industry.

For professional use only!

Properties:

neomoscan G 7 is a synergetic lubricant for conveyor belts based on alkylamine acetates and anionic and non-ionic surfactants:

- good lubricating effect on plastic and stainless steel conveyor belts
- good compatibility with colours printed on cardboard packaging and PE coatings
- low-foam formula
- with dispersing action; removes glass and metal abrasions from conveyor belts
- degrades slimy residues between conveyor belt segments resp. prevents their build-up
- suitable for all degrees of water hardness

Dosage:

Depending on the requirements the dosing is 0.1 – 0.4 weight%.

Do not mix with other products.

Rinse out dosing system including suction hose with water before changing product.

The weigomatic[®] dosing systems resp. neomatik[®] dosing devices by Dr. Weigert enable controlled, safe and economical application. We are a specialist company in accordance with the German Water Conservation Act (Wasserhaushaltsgesetz, WHG). Suited to the individual conditions and requirements we plan, install and maintain central and distributed dosing systems.

Determining concentration:

A method for determination is available on request.

Technical data:

Appearance:	clear, yellowish liquid
Density (20 °C):	approx. 1.00 g/cm ³
pH value (1% in deionised water, 20 °C):	approx. 6.4

Storage information:

Always store at a temperature between 6 °C and 30 °C.

Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

Hazard and precautionary statements:

For safety information see EC safety data sheets. These are available at www.drweigert.com under the category "Service/Downloads".

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.
