SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Product itself is non-combustible; adapt fire extinguishing measures to surrounding areas.

5.2. Special hazards arising from the substance or mixture In case of combustion evolution of dangerous gases possible.

5.3. Advice for firefighters

Special protective equipment for fire-fighting

In case of combustion use a suitable breathing apparatus.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures Avoid contact with skin, eyes and clothing.

6.2. Environmental precautions

Do not discharge into surface waters/groundwater.

6.3. Methods and material for containment and cleaning up

Pick up with absorbent material. Clean contaminated floors and objects thoroughly, observing environmental regulations. Dispose of as prescribed.

6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on protection against fire and explosion

No special measures required.

7.2. Conditions for safe storage, including any incompatibilities

Recommended storage temperature

Value > 5 < 30 °C

Requirements for storage rooms and vessels

Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Hints on storage assembly

Do not store together with foodstuffs.

Storage classes

Storage class according to 12 Non-combustible liquids TRGS 510

Further information on storage conditions

Keep container tightly closed and dry.

7.3. Specific end use(s)

no data

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Other information

neodisher Entschäumer S Print date: 20.01.23 Replaces Version: 2 / GB Date revised: 20.11.2019 Version: 3 / GB There are not known any further control parameters. 8.2. Exposure controls General protective and hygiene measures Observe the usual precautions for handling chemicals. **Respiratory protection** Not necessary, but do not inhale vapours. If workplace limits are exceeded, a respiratory protection approved for this particular job must be worn. Hand protection Chemical resistant gloves Use Permanent hand contact Appropriate Material neoprene Material thickness >= 0.65 mm Breakthrough time 480 min > Appropriate Material nitrile Material thickness 0.4 >= mm Breakthrough time 480 min > Appropriate Material butyl Material thickness 0,7 $\geq =$ mm Breakthrough time 480 min > Short-term hand contact Use Appropriate Material nitrile Material thickness >= 0.11 mm Hand protection must comply with EN 374. Eve protection Safety glasses with side protection shield; Eye protection must comply with EN 166. **Body protection** Not necessary. SECTION 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties Physical state liquid colourless to slightly yellow Colour characteristic Odour **Melting point** Remarks not determined Freezing point Remarks not determined Boiling point or initial boiling point and boiling range Remarks not determined Flammability evaluation not determined Upper and lower explosive limits Remarks Not applicable Flash point Remarks Not applicable Ignition temperature Not applicable Remarks

SECTION 10: Stability and reacti	vity						

SECTION 10: Stability and reactivity

10.1. Reactivity

No hazardous reactions when stored and handled according to prescribed instructions.

10.2. Chemical stability

No hazardous reactions known.

10.3. Possibility of hazardous reactions No hazardous reactions known.

10.4. Conditions to avoid

No hazardous reactions known.

10.5. Incompatible materials

None known

No hazardous decomposition products known.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute oral toxicity	
Species	rat
LD50	> 2000 mg/kg
Method Remarks	calculated value (Regulation (EC) No. 1272/2008) Based on available data, the classification criteria are not met.
Acute dermal toxicity Remarks	Based on available data, the classification criteria are not met.
Acute inhalational toxicity Remarks	Based on available data, the classification criteria are not met.
	based on available data, the classification chiena are not met.
Skin corrosion/irritation Remarks	Decod on evolution data, the electricities evidence are not mot
	Based on available data, the classification criteria are not met.
Serious eye damage/irritati	
evaluation	non-irritant
Sensitization	
Remarks	Based on available data, the classification criteria are not met.
Subacute, subchronic, chr	•
Remarks	Based on available data, the classification criteria are not met.
Mutagenicity	
Remarks	Based on available data, the classification criteria are not met.
Reproductive toxicity	
Remarks	Based on available data, the classification criteria are not met.
Carcinogenicity	
Remarks	Based on available data, the classification criteria are not met.
Specific Target Organ Toxi	city (STOT)
Remarks	Based on available data, the classification criteria are not met.
Aspiration hazard	
Based on available data, the	e classification criteria are not met.
.2 Information on other ha	zards
Endocrine disrupting prop	erties with respect to humans
	n a substance that has endocrine disrupting properties with respect
Other information	
There is no data available or	the product apart from the information given in this subsection

SECTION 12: Ecological information

12.1. Toxicity

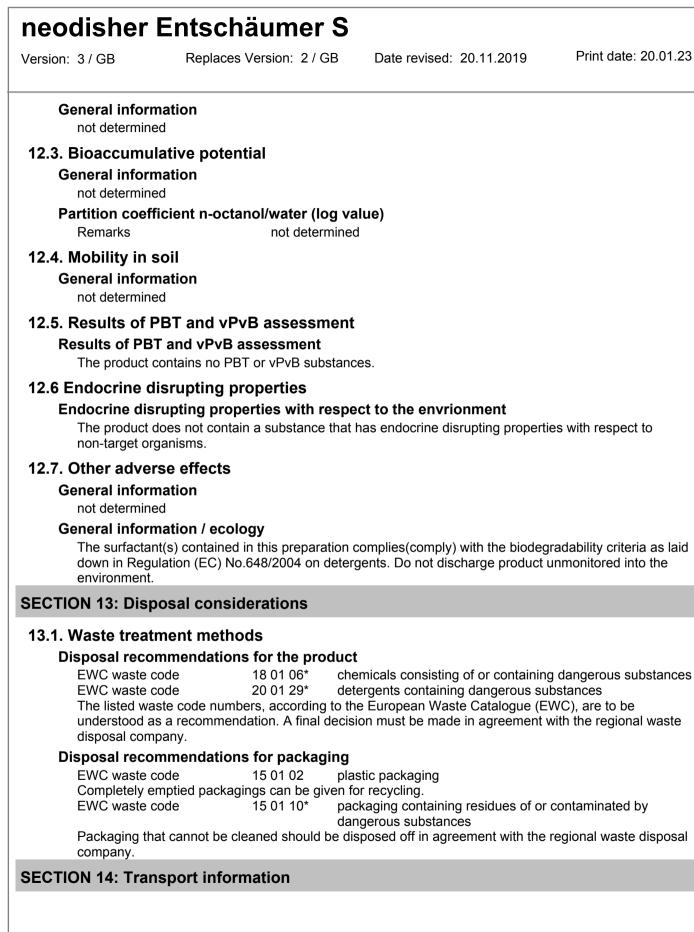

General information

not determined

12.2. Persistence and degradability
