Complete text of hazard statements in chapter 16

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

Remove contaminated, soaked clothing immediately and dispose of safely. Clean body thoroughly (bath, shower). In any case show the physician the Safety Data Sheet.

After inhalation

Ensure supply of fresh air. When spray fog inhaled, seek medical aid.

After skin contact

After contact with skin, wash immediately with plenty of water. Take medical treatment.

After eye contact

In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. Summon a doctor immediately.

After ingestion

If swallowed, seek medical advice immediately and show this container or label. Rinse mouth thoroughly with water. Let plenty of water be drunk in small gulps. Do not induce vomiting.

Adhere to personal protective measures when giving first aid

First aider: Pay attention to self-protection!

4.2. Most important symptoms and effects, both acute and delayed Until now no symptoms known so far.

4.3. Indication of any immediate medical attention and special treatment needed

Hints for the physician / hazards

In the case of swallowing with subsequent vomiting, aspiration of the lungs can occur which can lead to chemical pneumonia or asphyxiation.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Product itself is non-combustible; adapt fire extinguishing measures to surrounding areas.

Non suitable extinguishing media

Full water jet

5.2. Special hazards arising from the substance or mixture

In case of combustion evolution of dangerous gases possible.

5.3. Advice for firefighters

neomoscan FA 18 Print date: 12.07.23 Replaces Version: 2 / GB Date revised: 23.01.2023 Version: 3 / GB Special protective equipment for fire-fighting Do not inhale explosion and/or combustion gases. In case of combustion use a suitable breathing apparatus. Other information Collect contaminated fire-fighting water separately, must not be discharged into the drains. Fire residues and contaminated fire-fighting water must be disposed of in accordance with the local regulations. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Avoid contact with skin, eves and clothing. Refer to protective measures listed in Sections 7 and 8. 6.2. Environmental precautions Do not discharge into the drains/surface waters/groundwater. 6.3. Methods and material for containment and cleaning up Pick up with absorbent material. Dispose of absorbed material in accordance with the regulations. 6.4. Reference to other sections Refer to protective measures listed in Sections 7 and 8. **SECTION 7: Handling and storage** 7.1. Precautions for safe handling Advice on safe handling Avoid formation of aerosols. Observe the usual precautions for handling chemicals. Keep container tightly closed Advice on protection against fire and explosion The product is not combustible. 7.2. Conditions for safe storage, including any incompatibilities **Recommended storage temperature** 30 °C Value -20 < Requirements for storage rooms and vessels Keep in original packaging, tightly closed. Storage rooms must be properly ventilated. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Storage classes Storage class according to Non-combustible corrosive hazardous substances 8B **TRGS 510** 7.3. Specific end use(s) no data **SECTION 8: Exposure controls/personal protection** 8.1. Control parameters **Exposure limit values** sodium hydroxide List EH40 Туре WEL Short term exposure limit 2 mg/m³ Other information There are not known any further control parameters.

8.2. Exposure controls

General protective and hygiene measures

Hold eye wash fountain available. Hold emergency shower available. Do not inhale gases/vapours/aerosols. Avoid contact with skin and eyes. Do not eat, drink or smoke during work time. Wash hands before breaks and after work. Clean skin thoroughly after work; apply skin cream.

Respiratory protection

If workplace limits are exceeded, a respiratory protection approved for this particular job must be worn. Particle filter P2

Hand protection

Chemical resistant gloves			
Use	Perma	nent hand	contact
Appropriate Material	neopre	ene	
Material thickness	>=	0,65	mm
Breakthrough time	>	480	min
Appropriate Material	nitrile		
Material thickness	>=	0,4	mm
Breakthrough time	>	480	min
Appropriate Material	butyl		
Material thickness	>=	0,7	mm
Breakthrough time	>	480	min
Use	Short-t	erm hand o	contact
Appropriate Material	nitrile		
Material thickness	>=	0,11	mm
Hand protection must compl	y with E	N ISO 374.	

Eye protection

Safety glasses with side protection shield; Eye protection must comply with EN 166.

Body protection

Clothing as usual in the chemical industry. Protective shoes

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	liquid, clear
Colour	colourless to yellowish
Odour	characteristic

neomoscan FA 18 Print date: 12.07.23 Replaces Version: 2 / GB Date revised: 23.01.2023 Version: 3 / GB **SECTION 12: Ecological information** 12.1. Toxicity **General information** not determined Fish toxicity (Components) sodium hydroxide Species rainbow trout (Oncorhynchus mykiss) LC50 45.4 mg/l Duration of exposure 96 h **Daphnia toxicity (Components)** sodium hydroxide Species Daphnia magna EC50 > 100 mg/l Duration of exposure 48 h 12.2. Persistence and degradability **General information** not determined 12.3. Bioaccumulative potential **General information** not determined Partition coefficient n-octanol/water (log value) Remarks not determined 12.4. Mobility in soil **General information** not determined 12.5. Results of PBT and vPvB assessment General information not determined Results of PBT and vPvB assessment The product contains no PBT substances The product contains no vPvB substances. 12.6 Endocrine disrupting properties Endocrine disrupting properties with respect to the envrionment The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms. 12.7. Other adverse effects General information not determined General information / ecology Do not allow to enter soil, waterways or waste water canal. Avoid release into the atmosphere. SECTION 13: Disposal considerations 13.1. Waste treatment methods

Version: 3 / GB

Replaces Version: 2 / GB

Date revised: 23.01.2023

Print date: 12.07.23

Disposal recommendations for the product

EWC waste code18 01 06*chemicals consisting of or containing dangerous substancesEWC waste code20 01 29*detergents containing dangerous substancesThe listed waste code numbers, according to the European Waste Catalogue (EWC), are to beunderstood as a recommendation. A final decision must be made in agreement with the regional wastedisposal company.

Disposal recommendations for packaging

EWC waste code 15 01 02 plastic packaging Completely emptied packagings can be given for recycling.

EWC waste code 15 01 10* packaging containing residues of or contaminated by dangerous substances

Packaging that cannot be cleaned should be disposed of in agreement with the regional waste disposal company.
